Rithm School

MASTER'S DEGREE  
Education  
Multiple Subjects Credential  
UC Santa Barbara

BACHELOR OF ARTS  
Comparative History of Ideas  
Minor: Music  
University of Washington

## PROFESSIONAL PROFILE

Full stack software engineer with demonstrated experience in development as well as education, management, and music. Deeply curious, flexible, and adaptive developer currently seeking opportunity with collaborative and creative team to build awesome things with code.

## EXPERIENCE

### Groupmuse | 2018

Mobile Engineer Internship

Built React Native iOS app for Groupmuse, a social app that connects people who are passionate about classical music through a concert scheduling platform.

- Designed and created reusable, testable, and styled components following atomic design principles using React Native, Redux, Storybook, Jest, Enzyme, and Detox.
- Collaborated on team of six, using extensive pair coding and tools such as Figma and Trello.
- Implemented "manage rsvp" feature which allows users to modify their existing reservations and add guests. Created new components and additional reducers to make API calls to the Ruby on Rails back end.
- Finalized reservation flow to enable users to complete reservations. Refactored and optimized styled components for reusability using flexbox and css.
- Using React Navigation, enabled headers, form submission, and buttons to direct a user based on conditions in the Redux state or API.

### Google/Market Star | 2012-2013

East Bay Market Manager for Google Chromebooks

- Leveraged knowledge of cloud computing and computer specifications to promote Chromebooks and Google products including Drive, Docs, and the Chrome browser.
- Hired and mentored sales representatives, teaching both technical and soft skills needed to educate customers about cloud computing and Google products.
- Provided product and technical training for sales representatives and employees.

### Aspire Schools | 2010-2011

Substitute Teacher

- Developed lesson plans and curriculum as needed to cover for absent teachers. Adapted classroom management style daily to fit the cultural norms and classroom expectations established by the lead teacher.

### Ellwood Elementary School | 2009-2010

Music Specialist

- Created new music curriculum for grades preK-6. Designed, prepared, and executed spectacular spring finale concert to showcase student work done through the year.
